

Dear Prospective Parents,

St. Joseph Catholic School has offered Catholic education with strong academics for over 50 years to the Winter Haven area. This legacy of academic excellence continues with our strong curriculum and dynamic teaching faculty. Last year three graduates of St. Joseph graduated from local high schools as valedictorians. Success like theirs is not the exception, but an example of the formation of St. Joseph students. Students enjoy a rich foundation of Catholic faith through academic instruction as well as opportunities to put their faith into action. Our rigorous curriculum in all subject areas gives students a strong foundation to learn and develop intellectually.

The facilities of St. Joseph offer a secure campus which includes a gym, media center, science lab, computer lab, and art studio. Our music program offers opportunities for students to perform and grow.

The teachers and administrators of St. Joseph Catholic School are all degreed and have Florida certification. In addition, St. Joseph offers Title I services, a resource program, a school guidance program, Spanish, art, music, physical education, a competitive sports program, and a vast elective program for middle school students.

The most important facet of education at St. Joseph Catholic School is the palpable family feeling that permeates school, parish and family life. Becoming a member in the St. Joseph family offers you and your child an extended faith based family.

St. Joseph Catholic School has a commitment to provide a strong academic Catholic education for all families. We welcome you to visit our school to meet our administrators and teachers. You are welcome to tour the school by appointment.

Cordially,

Deborah A. Schwope, M.Ed.
Principal
